

Foundation course

Develop your toolbox and make your Coaching more effective and unique!

The purpose of the Foundation course is to provide Coaches with the skills to use Constellations in one-on-one coaching in different situations: in person – with signposts on the floor or figures on tabletops – and on-line.

The course is open to Coaches which have already acquired the basic skills to work with people.

The Foundation course is the first step in your learning path with Constellations. For many participants in previous editions, it was an important step in both their personal and professional development.

- Personal and professional development: decision making, achieve a goal, career planning, increase personal impact, develop personal leadership
- Relationships: improve communications, understanding and collaboration, get better at stakeholder or client management
- Teamwork: improve group dynamics, create a high performance team, value diversity and practise inclusion
- Business: assess strategy or projects, organizational effectiveness, change management

The course is delivered on-line and it is designed to ensure effective learning.
